

CLASS 6
SCIENCE
CHAPTER 1

FOOD: WHERE DOES IT COME FROM?

HOTS QUESTIONS

1. How can you recognize the food from plant sources and the food from animal sources in packaged food items?
2. You and your family planned for lunch at a South Indian Cuisine restaurant. What are the food items you would like to order? Make a list of the ingredients of each of the food item you would order.
3. Why do people at different states of India have different food habits?
4. A number of people and children in our society do not get sufficient food to eat. Suggest ways in which we can ensure easy and sufficient food to everyone.
5. Depending on the food habits animals are grouped as herbivores, carnivores and omnivores. In which group spider, mosquito, leech, honey bee and earthworm fall in?
6. Sonia plans to make a salad from sprouted seeds. What are the ingredients she needs to arrange? What will be the benefit of eating such salad?
