- Q3. Name different ways you know to preserve food items?
- Q4. Why can't food be spoiled when kept in a freezer?
- Q5. What can be added to the food items to preserve them ?

### CASE STUDY

A **mango** is an edible **stone fruit** produced by the tropical **tree** which is believed to have originated from the region between northwestern **Myanmar**, **Bangladesh**, and northeastern **India**. **MANGO** has been cultivated in **South** and **Southeast Asia** since ancient times resulting in two distinct types of modern mango cultivars: the "Indian type" and the "Southeast Asian type". Other species in the genus **Mangifera** also produce edible fruits that are also called "mangoes", the majority of which are found in the **Malesian** ecoregion.

Worldwide, there are several hundred **cultivars** of mango. Depending on the cultivar, mango fruit varies in size, shape, sweetness, skin color, and flesh color which may be pale yellow, gold, or orange. Mango is the **national fruit** of **India** and **Pakistan**, and the **national tree** of **Bangladesh**.

- Q1. In ancient times where were mango cultivated?
- Q2. Mango is produced by the \_\_\_\_\_ tree?
- Q3. MANGO is the national fruit of \_\_\_\_\_ & \_\_\_\_\_.
- Q4. What are the colors of ripe mango?
