

## SATISH CHANDRA MEMORIAL SCHOOL CHAKDAHA

CLASS – VI      CASE STUDY      SESSION – 2022-23

### HISTORY- CHAPTER-1- WHAT, WHERE, HOW AND WHEN

There are several ways of finding about the past. One is to search for and read books and magazines that were written long ago. We could listen to the radio, watch television, we can communicate with people to know about the past. The study of remains of buildings made of stone and brick, paintings and sculpture, exploring and excavating to find tools, weapons, pots, pans, ornaments and coins. Some of these objects may be made of stone, others of bone, baked clay and metal.

1. How can we know about the past?
2. Who explore, excavate and study to know about the past?
3. What were the written books called that were written long ago? How and where were they written?
4. How were the *inscriptions* written?

### CHAPTER-2- FROM HUNTING- GATHERING TO GROWING FOOD

Cave paintings were discovered by the school students more than a hundred years ago in France which were made by the early people between 20,000 and 10,000 years ago. Many of these were of animals painted in bright colours from minerals like ochre or iron ore and charcoal. It is possible that these paintings were made for several rituals performed hunters before they went in search of prey.

1. When were the cave paintings done by the people?
2. Who discovered the cave paintings in France?
3. How and when were the cave paintings done?
4. What are cave paintings?
