

Case study

Twenty girls and twenty boys,
Forty of us share our joys,
We work and play and laugh and cry,
We always do our best to try
And do what teacher tells us to
For it helps to get us through !
We read and write ,draw and recite,
Learn to be good, neat and polite .
We add and subtract, multiply and divide ,
We love to be our teachers' pride ,
And we love to hear them say ----
'Oh children, you have made our day !'
School really can be lots of fun ,
Once everybody's work is done!

Choose the correct option.

1. The poem is about

- a) a group of friends. b) a group of students .
- c) a group of siblings. d) a group of family.
